Any maps or geographic representations of data in the 2025 Into the Light Index do not imply the expression of any opinion whatsoever on the part of Childlight or the University of Edinburgh or our funders concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Artificial intelligence statement

Childlight promotes ethical and responsible use of artificial intelligence (AI). The 2025 Into the Light Index on Global Child Sexual Exploitation and Abuse is human developed and analysed. Childlight has guidelines governing best practice in the use of AI across all our programmatic areas including research. We do not use AI to support the writing of research findings that have yet to be published, adhering to our data governance and protection principals for not sharing unpublished data with AI software. Any use of AI in the generation of research, such as through our

methodological approach, including the use of translation support, is fully disclosed in the Index Technical Note.

Child Helpline Data

Child helpline data (2023) was analysed through a data sharing agreement with Child Helpline International (<https://childhelplineinternational.org/>) and relies on data reported into them by the individual member helplines for Europe (<https://childhelplineinternational.org/helplines/#Europe>) and South Asia (<https://childhelplineinternational.org/helplines/#Asia-Pacific>).
